Malang, Indonesia

I am Hasan Fadlullah Bafagih (Fadil Bafagih), a Computer Science student at BINUS University specializing in Full-Stack Web Development, UI/UX, and Android Development. I have experience working on company profile website projects for PumaCon, and was actively involved as an activist with HIMTI BINUS University (2023–2024). I possess problem-solving, collaborative, and creative skills, and am committed to continuously developing as a full-stack developer by contributing to the creation of digital branding that integrates with creative design.
